# ADVERTISEMENT.

FOR the preparation of the Introductory Remarks prefixed to this volume, as well as for correcting the proofs of the tables which composé it, the Superintendent of the Baptist Mission Press is indebted to J F M REID, Esq , Register to the Courts of Sudder Dewanny and Nizamut Adawlut at Calcutta For the great kindness of this Gentleman, in taking upon him such an addition to his official duties, M<sup>r</sup> PEARCE embraces this opportunity of expressing his best acknowledgments , while he, at the same time, congratulates the Government and the Public, that by this means they are supplied with a volume of far superior accuracy to any which it would otherwise have been in his power to supply.

CALCUTTA, }  
20th July, 1835 }

# INTRODUCTION

## TO THE

# CHRONOLOGICAL TABLES.

---

THE following Tables, compiled from the manuscript originals in the Register's Office of the *Sudder Dewanny Adawlut* at Calcutta, are published under the authority of Government. They will be found extensively useful to the Officers of Government, Merchants, Indigo-planters, and others who have dealings with the natives of the country, in comparing the corresponding dates of the several *æras* current in the provinces of Bengal, Behar, Orissa, and Benares, and in the ceded and conquered provinces; and in ascertaining the correctness of law papers and other documents, which are frequently fraudulently altered in one or more of their dates, with a view to adopt them to the substantiation of a desired fact, or to negative their value or importance, as the case may be.

In Bengal, the Bengalee year, where no specific mention of another *æra* is made, is understood to be intended; in Orissa, the Willanty. They are used respectively in the collection of the Government revenue, and in transactions between individuals, in those provinces.

The Fuslee and Sumbut years are, in like manner, current in the provinces of Behar and Benares, and in the ceded and conquered provinces. The Government revenue is collected by the Fuslee year, and the common transactions of life are, as regards the period of their occurrence, regulated by it. The Sumbut year is chiefly used by native merchants and bankers.

The Hyree year obtains generally, throughout the provinces, in a greater or less degree, as the local community may or may not consist of Mahomedans; to transactions amongst whom it may be said to be exclusively confined.

The Bengalee and Willanty are solar, the Fuslee and Sumbut, lunar years, and the calculations, in all, accord with the principles of the Hindoo Astronomy. The days of the month of the three first-mentioned

styles are reckoned in consecutive order; so that the first day being found in the tables, the subsequent dates can be easily ascertained. In the Sumbut, however, the date cannot be ascertained if not given in the tables, in consequence of dates being expunged and repeated, as will be hereafter explained.

The Hindoo solar year consists of 365 days, 15 ghurrees 30 puls, and  $22\frac{1}{2}$  bepuls\*, and is divided into 12 months each commencing from the moment the sun enters a new sign of the zodiac. The following table shews how far the months coincide with the English months, and the sign of the zodiac in which the sun is during each month.

1 Bysakh,	Corresponding with the last part of	April,	May	The sun is in the 12 signs of the Hindoo zodiac.	Mek'h,	Corresponding with the Latin signs.	Aries
2 Jhyt,		May,	June		Bik'h		Taurus
3 Asar,		June,	July		Mit moon		Gemini
4 Sawun,		July,	August,		Kark,		Cancer
5 Bhadoon,		August,	September.		Sing,		Leo
6 Assun or Kuwar,		September,	October.		Kunnya,		Virgo
7 Kartick,		October,	November		Toola,		Libra
8 U'rhun,		November,	December		Brischuk,		Scorpio
9 Poos		December,	January.		D'hun,		Sagittarius
10 M'gh		January,	February		Mukur,		Capricornus
11 Phagoon,		February,	March		Koomb'h,		Aquarius
12 Chyt,		March,	April		Meen,		Pisces

The Bengalee year commences on the 1st of Bysakh, the Willant on the 1st of Assun.

The Hindoo lunar year is shorter than the solar by 10 days, 5 ghurrees, 29 puls, and  $22\frac{1}{2}$  bepuls. This difference, in two solar years eight months and 15 days, amounts to one month. In the year in which it attains to this, viz. that in which two conjunctions occur while the sun is in the same sign, the second month is called by the same name as the preceding, and is denominated *Lound*, or *Udhuk*, or intercalary. No religious festivals occur in this month. The intercalations occur from Chyt to Assun, both inclusive.

The Fuslee year commences on the 1st of Assun, (called also in the Western Provinces Kuwar :) the Sumbut year, with the first day of the *Sooder Puk'h*, or second or bright semi-lunation of Chyt.

The Fuslee and Sumbut months correspond in name and duration of time, and commencing on the day after the full moon, extend to the full moon following. The days of the Fuslee month are reckoned, as

\* 60 Tils or Unoopuls = 1 Bepul

60 Bepuls, . . . = 1 Pul

60 Puls, . . . = 1 Ghurree or Dund

60 Ghurrees, . . . = 1 Natural Day and Night.

before stated, in consecutive order those of the Sumbut are governed by the following principles

The month is divided into 30 equal parts or *Tiths*, and again into two *Puk's*, or semi-lunations, each consisting of 15 *Tiths*. The first semi-lunation commencing on the day after the full moon (*Poorunmashee*), ends with the new moon (*Umawus*), and is called the *Budee Puk h*, or dark semi-lunation. The second commences on the day after the *Umawus*, and ends with the *Poorunmashee*, and is denominated the *Soodee Puk h*, or bright semi-lunation.

The civil or Fuslee month consists of from 28 to 30 days. The *Tiths*, therefore, of a month of 30 days, will be, each, longer than those of a month of 28 or 29 days, and, as the Hindoo civil day embraces the period between sun-rise and sun-rise, a day will occasionally occur in which two *Tiths* will expire. Sometimes again no *Tith* will expire during the course of the day. In the first instance, the second *Tith* will be expunged, the day invariably taking its name from the first *Tith* which ends during the course of it. *e g* the first *Tith* expires just after sun-rise of the first day of Poos Fuslee, the second before sun-rise of the second day of Poos Fuslee, the third, during the course of the second of Poos Fuslee. then\* the first day of Poos Fuslee will be called Poos *Budee Purwa*, the second Poos Fuslee, Poos *Budee Teej* (the second *Tith* being expunged), the third Poos Fuslee, Poos *Budee Chouthee*, and so on. In the second instance, the day in which no *Tith* expires will be called by the same number as the preceding day. *e g* the first *Tith* expires about the close of the first, or exactly at, or a little before sun-rise of the second Fuslee day, and the second, just after sun-rise of the third Fuslee day, then† the first Fuslee day will be denominated Poos *Budee Purwa*, the second, also Poos *Budee Purwa*, the third, Poos *Budee Dooj*, the fourth, Poos *Budee Teej*, and so on.

The Hyree months are not constructed on astronomical principles. The month commences from the evening on which, (the day with

* Fuslee,	1st Poos	2nd Poos	3rd Poos	4th Poos.
Tith,	1 2	3	4	5
Sumbut,	Poos B Purwa	Poos B Teej	Poos B Chouthee	Poos B Punchumee
† Fuslee,	1st Poos	2nd Poos	3rd Poos	4th Poos
Tith,	1	2	3	3
Sumbut,	Poos B Purwa	Poos B Purwa	Poos B Dooj	Poos B Teej

the Mahomedans commencing at sun-set) the new moon is seen. The duration of the month therefore depends on the state of the atmosphere, and may vary in different places not far distant. No month can contain less than 29, or more than 30, days: *e. g.* if the new moon be seen on the evening of Sunday the 29th of Mohurram, the next day, Monday, will be the 1st day of Suffer. Should the heavens be cloudy, and no moon be seen on Sunday evening, Monday will be the 30th of Mohurram and Tuesday, the 1st of Suffer. In deeds, therefore, dated by the Mahomedan year, the day of the week should also be inserted.

The following are the names of the months of the Hijree year :

1 Mohurram	7 Rujub.
2 Suffer	8 Shaban
3 Rubbee ool Awul.	9 Rumzaan.
4 Rubbee oos Sanee, or ool Akhir.	10 Shuwal
5 Jumadee ool Awul	11 Zalkaideh.
6 Jumadee oos Sanee, or ool Akhir.	12 Zalhijeh

Under the dynasty of the Moghul Emperors, the year of the reigning Sovereign was usually inscribed in documents of a public nature. The year commenced from the accession of the Sovereign, and is called the year of the Juloos (reign). In the tables, the sixth year of the Juloos of Shah Alum commenced on the first of Jumadee ool Awul, 1178, Hijree, or Wednesday, 31st October, A. D. 1764. The first year of the Juloos of Acber Shah Sanee commenced on the 6th of Rumzaan, 1221, Hijree, Tuesday, 18th November, A. D. 1806.

For a more full account of the Native Eras, see Gilchrist's Hindoostanee Philology, vol. III. page 301.

\* In this lunar year there occur two intercalary months\* and one month is expunged from the calendar, owing to the principles for the formation of the lunar year, from the position of the moons in regard to the solar year. The expunged month embraces the second or *Soodas* half of Ughun and the first or *Budee* of Pooos.
